

QUIK[®] 4

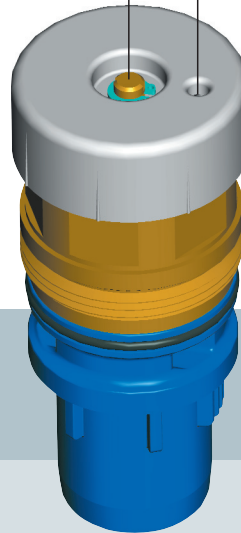

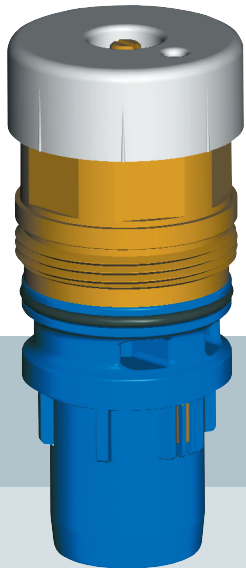

La nuova serie di rubinetteria temporizzata "QUIK 4" é stata progettata e realizzata con una nuova cartuccia innovativa che permette la regolazione del tempo e della portata con una semplice operazione.

The new range of automatic taps "QUIK 4" have been developed and produced with a new innovative cartridge that allows the regulation of the closing time and of the flow rate through a simple operation.

Regolazione tempo
Regulation time

Regolazione portata
Regulation flow rate

Senza rimuovere la cartuccia dal corpo del rubinetto e con un semplice cacciavite é possibile variare progressivamente temporizzazione e portata. Pertanto si otterrà sempre una perfetta regolazione del rubinetto.
Without removing the cartridge from the body of the tap and just with a screwdriver it is possible to change progressively the closing time and the flow rate. In this way the regulation of the tap will always be perfect.
